Mineral income 1,281,496
Interest and investment income 2,151,687
Other revenue:
Total private contributions 12,506,735
Contributions 1,163,595
Income and gifts from trusts 7,096,699
Total grants 33,203,539
Other competitive research grants 8,509,152
Competitive research grants:

Selected scientific publications

In 2009, OMRF researchers’ work appeared in more than 200 peer-reviewed scientific journals. The topics of their research studies ran the gamut from prostate and colorectal cancer to the effects of high doses of vitamin D on heart disease. The following is a selection of those publications.

Advanced Magnetic Resonance Center

Arthritis and Immunology
Nguyen ML, Tersgay S, Ballard JD, James JA, Farris AD. The major neutralizing antibody responses to recombinant anthrax lethal factor and edema factor are directed to non-cross-reactive epitopes. Infect Immun 77:4714-4723, 2009.

Cardiovascular Biology

Cell Cycle and Cancer Biology

Clinical Immunology

Clinical Pharmacology

Free Radical Biology and Aging

Genetic Models of Disease

Immunobiology and Cancer

Protein Studies
