OMRF Helpdesk

Working Remotely: Accessing a folder on data server from a home Mac computer

This tutorial will help you access a folder on the DATA file store server after first establishing a connection to the OMRF VPN. These instructions are for using a personal Mac to connect to DATA.

You will need:

- Internet Access
- Successful VPN connection
- Folder path
- Your OMRF login credentials

Setup steps:

On your home system

- A. Open Finder
 - 1. In the menu bar, click **Go**
 - 2. Click on Connect to Server
 - 3. Type smb://data or a known folder path in the Server Address:
 - 4. Choose the plus sign to save the address as a favorite server
 - 5. Select the newly created favorite server and click **Connect**
 - 6. Enter your OMRF login username and password as below (if asked)
 - i) Name: omrf.hsc.net.ou.edu\username
 - ii) Password: **password**
 - 7. Locate the appropriate parent directory folder in the list and select it
 - 8. Click OK
 - 9. The folder will open in a Finder window
